David,

Per your request, a map of the Animas river (including San Juan, Colorado, and Lake Powell) showing Shiprock NM is attached.

Also attached is a map showing a blow-up that can be used for sampling information (when the sampling location information is available).

Let me know if you have any changes or any additional information to display.

Mark

Subject: Re: Status report

I would appreciate a map of river including shiprock mm. Spots where sampling have happened would eventually be nice
